Art Unit:

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-58 are allowed.
2. The following is an examiner's statement of reasons for allowance: applicant has amended the claims to overcome prior art rejections by defining the structure of the upflow chamber in terms that are interpreted by the specification in a way that is not disclosed in the prior art. A liquid purifier comprising an unpurified batch container, a liquid flow passageway attached to the container to a dispensing outlet, an ozone generator, a pumping system producing a volumetric flow rate in the passageway, and an upflow chamber in the passageway downstream of a region where ozone gas joins the liquid shaped and sized such that the produced volumetric rate of liquid flow through the passageway causes liquid in the upflow chamber to rise slower than the rate at which bubbles rise in the liquid, is not taught, disclosed or suggested in the prior art of record. Reasons for allowance of claims 21-38 are given in paper no. 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank M. Lawrence whose telephone number is (703) 305-0585. The
